

## DESCRIPTION

1. Search for your favorite movie (using Google) then go to the IMDB site
2. Search for the main actors (stars section) on the IMDB page
3. Using the name of one of the main actors:  
search for at least 4 movies on IMDB and save the movie ratings
4. Search for news: use one of the main characters and save the link of the page (href)

## OUTPUT

A *txt* file, which contains the following data:

- Your favorite movie title
- The name of the main actor(s)
- Movie list, sorted by rating
- News link (about the main actor)
